

Producers in the Irrigation Assessment Program volunteer to have their center pivot or subsurface drip irrigation system evaluated by HPWD staff. The following data was collected during the 2020 growing season from **656 wells** at **128 irrigation system sites**. If you would like to sign up for the program, contact the HPWD office.

## Average Crop Water Use

## Average Yield

106  
bu/ac

Corn

824  
lbs/ac

Cotton

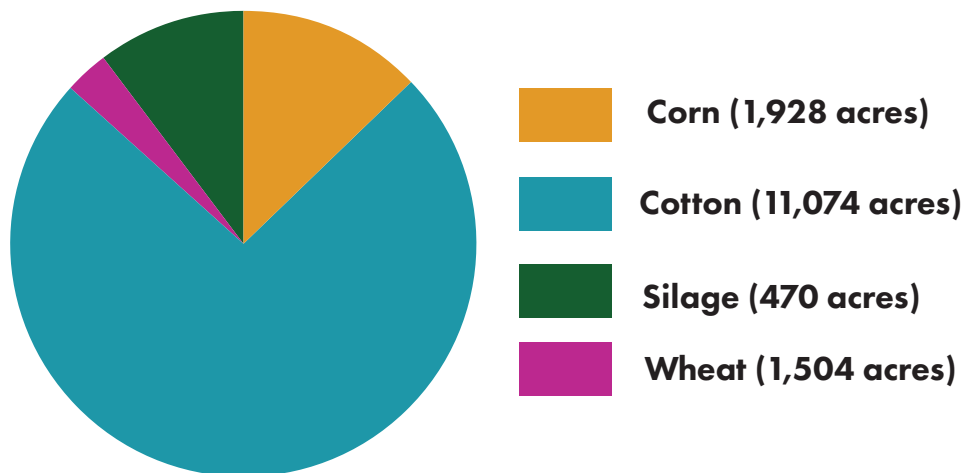

24  
ton/ac

Silage

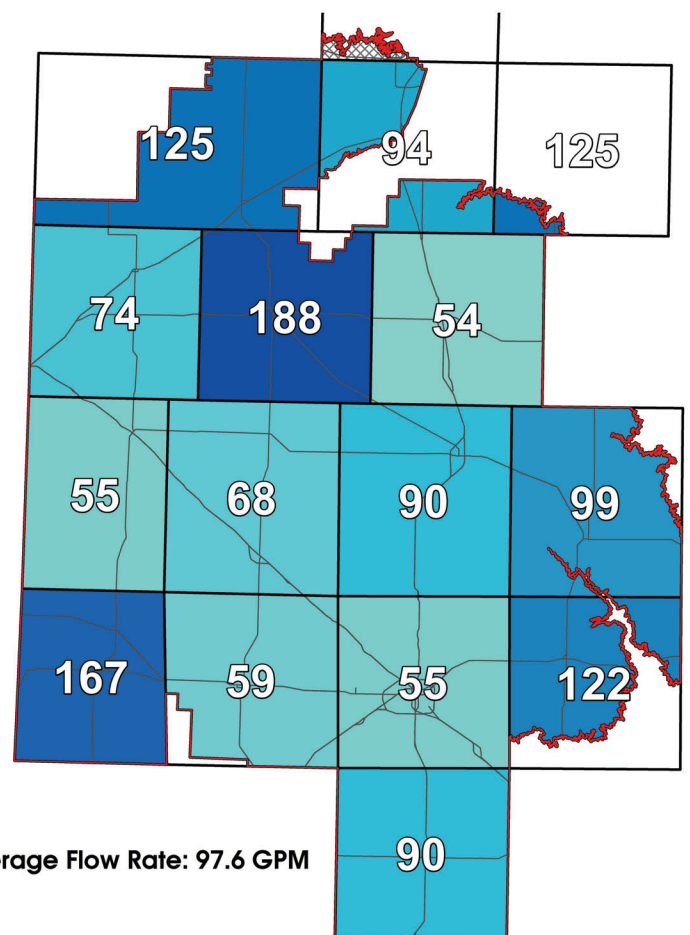

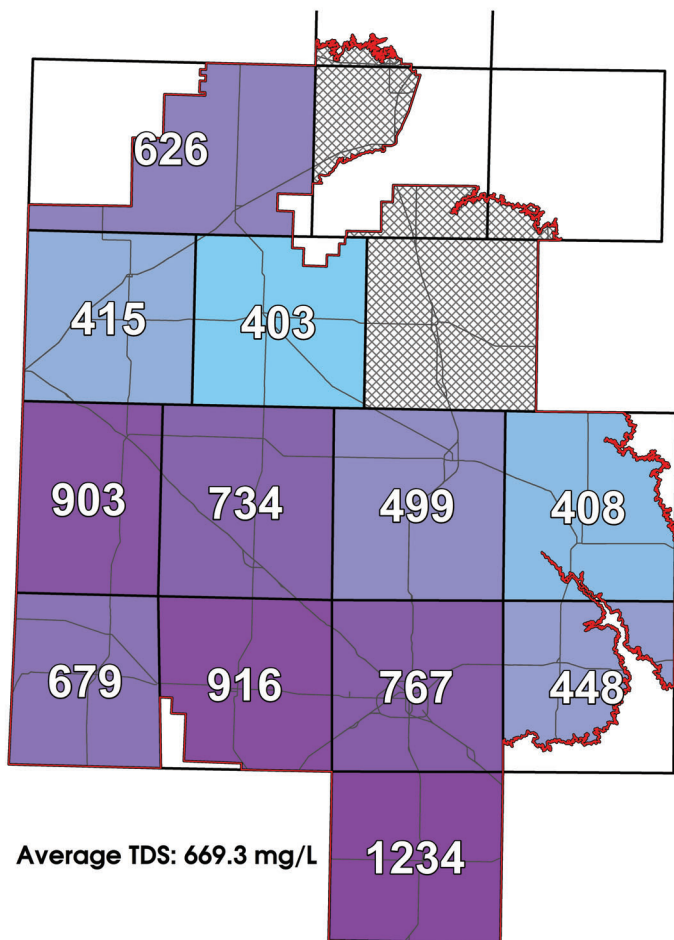

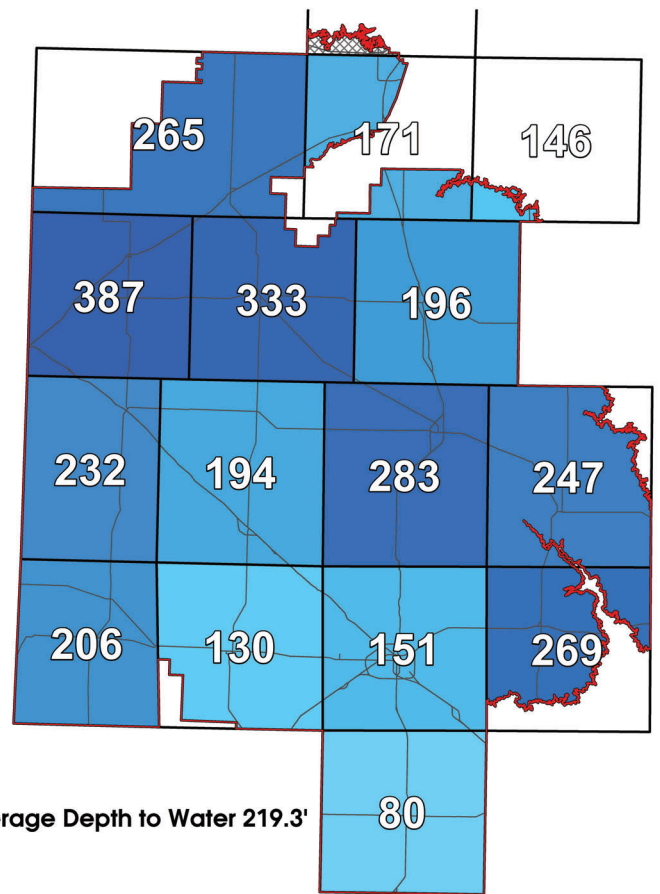

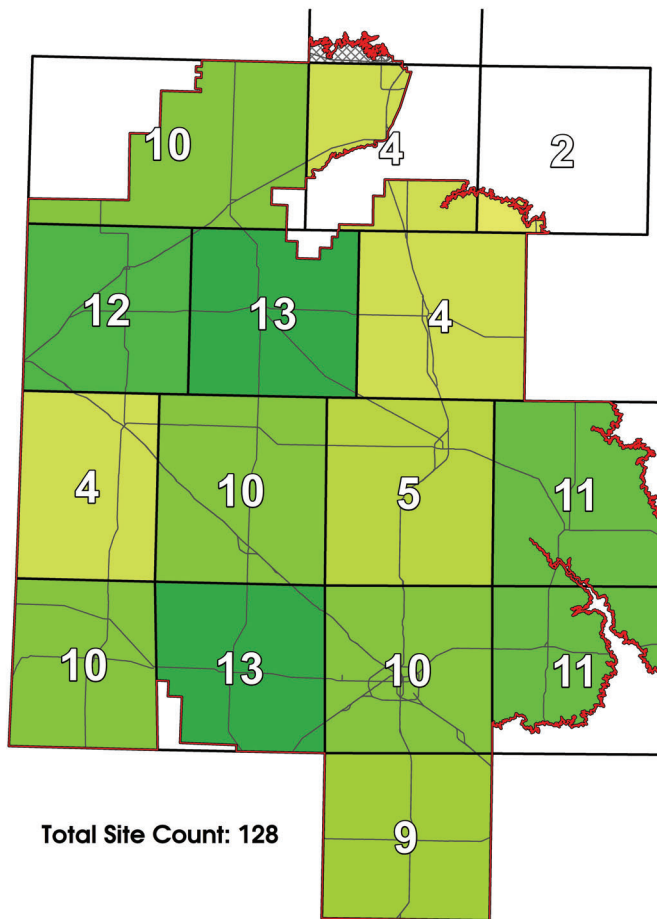

40  
bu/ac

Wheat

## Acres in Program

See back page for more details.

This data is based on information collected by the High Plains Underground Water Conservation District at Irrigation Assessment Program sites during the 2020 growing season.
